The AI Pound

BEDS · HERTS · BUCKS

FOR CLINICS & SALONS

Your team answers the same 12 questions every day.

Prices, aftercare, availability, patch tests. An AI assistant can answer them on WhatsApp, in your words, so your team stops typing the same reply between clients.

- Answers from your own price list: it can't invent an offer you don't run.
- Stops at anything clinical and sends it to your team.
- You approve every reply until you trust it.

DAY 1

45-minute setup: your treatments, prices and rules go into a simple sheet.

WEEK 1

It drafts every reply; your team approves with one tap.

DAY 14

See the hours it saved. Keep it, or I switch it off.

After the pilot: **£200 setup + £50 a month**, month to month. Cancel any time.

Free 2-week pilot

No card. No contract. I set it up with you in 45 minutes. Keep it only if it saves you time.
